Inferno sighed she was quite bored. She had lived her first five years of life with her grandmother Glory, well until her mother came back and killed her to take the throne. She quite wished she had been braver or her grandmother might still be alive. She watched as the rainforest rainwing dragonets practiced skills, and fruit tasting. She had no heirs and Jambu her great uncle's descendants had been long since dead, as they had tried to kill her at the young age's of 6, 7, 8, 9, and 10. She smiled knowing a nonheir could not fight her for the throne, unless they were proven worthy, though many had tried.

Could Inferno be like a helper of the prophecey to, like inspector, or trainer as her side job.

She will be 15.

My signature is not for this rp except the parts that quailify it's for other rp's where she can have everything I gave her. Yes, she was originally created by me. The original reason for her to have so many powers was because people were always saying you missed, you missed agiain, so I figured give her animus. Tada they can't say that all the time. I don't use her powers for evil in any rp's but I just wanted you guys to know the background story behind her and she use to have way more powers but she only has normal powers for this rp.

She looked around at the few nightwings who still lived in the rainforest, since what had happened between Battlewinner and Queen Glory. When a new nightwing Queen had come along many had left. Only about a three hundred were left and there had once been millions. A young nightwing came up to her with a flower. She smiled, maybe this would be the one to take her place when she was gone. Inferno had once married and had a single egg. She had been a twin also and so had her mother, and the egg would have had twin females, but it disappeared, thought to have been eaten by wolves, and later her husband died. She could not track who did it even with mindreading abilities. Her mother had been a rare discovery of thrice moon born animus, but was cursed so she couldn't pass her animus on and neither could her daughters born on a thrice moon. Inferno took the necklace she wore that her mother gave her to help her and protect her and put it around the little dragonets neck.

name: Jaqueline
nickname: Jacqueline
Sexualilty: Straight
Gender: Female
Age: 6
Tribe: Rainwing/nightwing
Crush: Open
Animus: maybe if you see my reasoning.
Moonborn: yes, but no powers, because her egg was stolen for some reason or another, but not for a prophecey.

Appearance: She looks like a normal nightwing, but things don't always seem as they do. Her scales, usaully are midnight purple, but other times they are black, midnight blue, brown, greyish, or a mixture of those. Even in the sunlight.

Personalilty: Hotheaded, mean tempered sometimes, but usually really nice and always acts really sweet in front of Queen Inferno. For some reason or another Queen Inferno cannot read Jaquelines mind. She is really shy though, so even when she is mean she never talks. The reason she never talks is because the family she lives with mistreats her, so she acts like them, because she doesn't really know how to make friends. (Hint on who this is)

Powers: Could she be a secret animus because it skipped generations sometimes, and you know. I will not overpower her. I promise, I am not one of those people who says you miss because she teleports everytime someone attacks her. She also can't heal herself, bring anyone back to life, or control anyone with her powers there soley for helping others, and she does not know right away until one day someone attacks her and she makes like a force field, but once she learns she never uses them for protecting herself just others. I will even let her fight and battle, plus get scars and almost die. She can also shoot venom, but not always when she wants to.

backstory: No one knows, not even herself

Inferno noticed another dragonet... Hey there she said as she put the flower the other dragonet gave her in a pouch. It's okay you can do it... Here she said taking the piece of paper from Stargazer. Watch she said carefully folding the ripped paper into a rose. You know roses are my favorite flowers.

Question is stargazer a nightwing Or a hybrid*

Name: FateWalker
Nicknames: Fate, Walk, Fatefool

Gender: Feminine
Sexuality: Bisexual
Tribes: 3/4 NightWing-1/4 SeaWing.
Appearance: FateWalker is a pretty dragon who looks like a NightWing all over. Her scales glint a green in bright light and her wind membrane is a dark green color as well. She had sharper talons than most NightWings and her horns curve slightly. Since she was born on a one-moon night, she does have a faint prophetic-visions tendency, but no visual sign of it. A muscular dragon who is also a pretty good swimmer. Has shorter legs than most NightWings but isn't impared or an obvious hybrid in any way.
Personality: Sweet, soft and caring, she always sticks up to others. She makes sure no one messes with her bean friends :b
Powers/Abilites: Future seeing, nightwing powers.
Backstory: Her egg was just left in the open. She kinda managed to survive, but barely.
Crush: Open
